# Serhii Antonets

AQA Engineer

**Summary**

I'm interested in modern approaches to quality assurance of software product development.

**Work experience**

**QA Engineer** (Mobile/Desktop)

*Ajax Systems / March, 2023 — present*

The company develops security systems.

My duties:

- Manual testing native mobile applications (Android/iOS) and desktop (Mac/Windows).
- Functional testing, smoke, extended, usability, regression, compatibility, performance etc.
- Writing out test documentation (bug reports, test cases, test plans).
- Analysis of Allure reports.
- Mentoring new employees.

**Courses Education**

**Test Automation Crash Course**

*Softserve / Nov. — Dec. 2022 / [Certificate](#)*

Selenium WebDriver, Page Object, Page Factory, TestNG, Allure Framework.

**Performance Analysis**

*EPAM Systems / Jul. — Nov. 2022 / [Certificate](#)*

The course covered the following topics:

- Software Functional Testing (Agile&Scrum, Test Planning, Requirements Testing, Test Cases and Test Scenarios, Defect Reporting).
- Java (Arrays, Function, String processing, Classes, Inheritance, Aggregation, Generics, Collection, Exceptions & Errors, Basic I/O, Serialization, Streams API).
- **Test Automation** (Selenium, Page Object, Page Factory, JUnit, TestNG, Cucumber)
- Performance Testing (Chrome DevTools, Fiddler, Gatling, Postman, JMeter).

**Education**

**Master's Degree in Applied Mathematics**

*Rivne State University of Humanities / Rivne, Ukraine / 2012–2018*
